

Mar Jude Arguelles

Full Stack Mobile Developer · Flutter / Dart

0926 651 5275 📞

Cebu, Philippines 🏠

ramj.arguelles@gmail.com ✉️

portfolio.mjarguelles.workers.dev 🌐

Mobile developer who ships production Flutter apps for iOS, Android and web, and builds the back ends behind them (Node.js, PostgreSQL, AWS Lambda). Live apps in gold trading and payments, property sales and food-safety training. Open to full-time or part-time remote roles.

Skills

Mobile	Flutter, Dart (iOS, Android, Web), push notifications, SSO logins (Google, Apple)
Backend & Cloud	Python (FastAPI), AWS Lambda, API Gateway, S3, Terraform, REST APIs, Node.js, PHP (Laravel, CodeIgniter)
Data	PostgreSQL, MySQL
Auth & Hosting	Firebase, Supabase, OAuth / SSO
Web & Tools	JavaScript, HTML5, CSS, Tailwind CSS, Git

Experience

NOV 2022 – PRESENT

Full Stack Mobile Developer | Cloudesk Pty Ltd, Cebu City

- Build and maintain cross-platform Flutter apps: **GoldPay** and **PGPay** (real-time gold trading, user-to-user transfers, payment gateway), **iPan** (property deals, scheduling, push notifications, commission insights) and **Kaizen** (staff food-safety training and assessments).
- Built **Appyfic ERP**, a multi-tenant, role-based ERP app for iOS, Android and web covering CRM, sales, purchasing, inventory, accounting, delivery and HR, with reporting and PDF/Excel exports, location check-ins, push notifications and Google and Apple sign-in. Runs on independently deployed serverless APIs (AWS Lambda, API Gateway, PostgreSQL, Terraform).
- Guide and support other developers on the team.

MAR 2018 – SEPT 2020

Software Engineer, PHP / Laravel | Chronostep, Inc., Cebu City

- Led several Laravel web projects from initial planning through release.
- Designed and built Laravel features and enhancements based on client feedback.

Education

School of Computer Engineering, major in Software Development

University of San Carlos, Talamban Campus, Cebu – April 2017
